EXPERIENCE

Techanzy | Mar 2026 - Present

Senior AI Solutions Engineer & Integrations Specialist

- Build custom AI solutions for clients across n8n, Make.com, bespoke Python services, and custom portals.
- Ship AI workers, including voice agents and chatbots, that run core parts of a client's business.
- Deliver seamless integrations across apps such as Outlook, HubSpot, WhatsApp, and more.

Techanzy | April 25' - present

AI Solutions Engineer

- Develop custom end-to-end AI solutions including voice agents, chatbots, and WhatsApp automation, with advanced features such as custom third-party app integrations, access to knowledge bases, appointment booking (Outlook/Gmail), and multi-step post-call actions (call analysis, automated emails, workflow triggers, etc.).
- Build intelligent voice agents capable of performing browser-based tasks, integrating with tools like HubSpot, Airtable, and various client systems to fully automate business processes.
- Designed robust automation workflows using Make.com, Zapier, and n8n, replicating and scaling complex client use cases.
- Developed multiple AI call-analysis agents able to process and interpret data from documents, audio files (MP3), and call recordings, primarily for sales and support analytics.
- Extensive experience with API ecosystems such as Vapi, ChatGPT, TogetherAI, and Vocera, delivering reliable voice and text automation across industries.

AIMS Lab | June - Aug 23'

AI Engineer

- Worked on an AI PPT Generator
Explored models such as falcon 7b and APIS such as mistral 7b and Open AI to check which works best.

Alevels

SKILLS

Languages: Python

Frameworks: Flask, Fast API

Version Control: Github

Tools and tech: VAPI, Twilio, Composio, OpenAI, hugging face, TogetherAI API, Vocera

Automation platforms: Make.com, Zapier, n8n

PROJECTS

Promptheus: Prompt Management SaaS

[Node.js](#), [FastAPI](#), [OpenAI](#), [Supabase](#), [Stripe](#)

- Live prompt optimization and management platform with a scoring/rewrite engine, community marketplace, org libraries, and a browser extension. Paying users.

Atlas: AI Agent Creation Platform

[Next.js](#), [LLM](#), [AIOS](#), [Supabase](#)

- Create voice agents, chatbots, and call-analyst agents in under 10 minutes via chat, form, or spec upload. Built for the Agent Championship.

LinkedGen AI: LinkedIn Post Generation SaaS

[Next.js](#), [DeepSeek V3](#), [Together AI](#), [Supabase](#)

- Generates publish-ready LinkedIn posts from 8 news sources with real-time streaming, LinkedIn OAuth publishing, and an automated scheduler.

PSX Advisor: Self-Improving Trading Signals

[Next.js](#), [Groq/Llama](#), [Supabase](#)

- AI BUY / SELL / HOLD signals for the Pakistan Stock Exchange that track their own accuracy and auto-rewrite the prompt, with a paper-trading sandbox and backtester.

Bloom: Private Couples PWA

[Next.js](#), [Supabase](#), [Claude](#)

- A private two-person app with cycle tracking, shared memories, an AI companion, an AI stylist, and a couple-only social feed.

Aria: Autonomous Hiring Agent

[VAPI](#), [Make.com](#), [Airtable](#)

- Screens CVs, conducts AI voice interviews with CV-aware questions, analyzes transcripts, and manages candidate communication end to end.

WhatsApp Support Bot: 24/7 Support Agent

[VAPI](#), [Make.com](#), [Trieve](#), [Airtable](#)

- Handles customer service, complaints, and FAQs around the clock over WhatsApp, logging every interaction for the team.

Kitchen Makeovers Voice Agent: Lead Qualifier

[n8n](#), [VAPI](#), [CrewAI](#), [Airtable](#)

- Prequalifies leads, books home visits directly into the client CRM, and runs a 42-day SMS/email follow-up sequence for missed calls.

Freedom HVAC: Marketing Website

[HTML/CSS/JS](#), [Vercel Functions](#)

- SEO-optimized multi-page HVAC and appliance-repair site with structured data and a serverless customer-reviews API.

Talkative

[AI Voice Agent](#)

- An AI voice agent for marketing and generating leads. It also analyzes interested customers and flags them. Made using Twilio and Mistral.

Lucy

[AI Voice Agent](#)

- An AI voice agent for HBL bank that handles customer care. Made using ElevenLabs and Deepgram.

AI Financial manager:

[AI Powered React App](#)

- Tracks budget, spending, makes graphs and reports based on them with an additional feature of analyzing data and providing AI powered suggestions. Tools used: React, Python (flask), Mistral.

AI PPT Generator:

[AI Powered React App](#)

- Generates PowerPoint presentations with related images with just a topic. Tools used: React, Python (flask), GPT 3.5 turbo.

AI Course generator:

[AI Powered React App](#)

- Generates detailed courses with different chapters with a single course name. Tools used: React, Python (flask), Mistral 7b.

Image de-blur

[AI Powered App](#)

- Un-blur images using GANs and Auto encoders. Tools used: HTML, Python (flask).

Time Table generator

[Python App](#)

- A program to generate a clash free time table using Generic Algorithm.

Ludo game

[C++](#)

- A Ludo game using Graphics.h library.
